Genealogical Proof Standard using Evidentia

Tracy Minsterman will present:

The Genealogical Proof Standard using Evidentia

Doing genealogy can be great fun, but frustrating at times. Once you have all your facts, you can place them in your database or online tree. In this discussion we'll address the elements of the genealogical proof standard (GPS) and show how they can help you improve the accuracy of your family tree. We'll do this using an app called Evidentia.

About the Speaker:

Tracy Minsterman has been doing genealogy as a hobby for the last decade but more seriously for the last few years. She gains much of her information from online seminars and podcasts and likes to share the knowledge she gains with others interested in genealogy.
